

Medical History/Immunizations

Health History Requirement

All incoming students must submit a full health history form, located on the TCU Student Health Portal.

Vaccination Requirements

All incoming students must comply with the following vaccination requirements to enroll at TCU:

1. **Bacterial Meningitis (MCV4 or MPSV4)** administered within the past 5 years. (Students over the age of 22 are exempt from this requirement).
2. **Two doses of the Measles, Mumps, and Rubella (MMR) vaccination** or proof of immunity to Measles and Mumps. (Students born before 1957 are exempt from this requirement.)

*Records must be submitted on the TCU Student Health Portal.

Vaccination Exemptions

- Students born before 1957 exempt from the MMR (Measles, Mumps, and Rubella) requirement.
- Students older than 22 are exempt from the Meningitis requirement.
- Non-exempt students with immunity to Measles and Mumps with missing vaccination records may submit titer results proving their immunity.
- Students with a medical contraindication are exempt from the contraindicated requirement with Medical Waiver Form and corresponding documents from your health care provider.
- Students with a reason of conscience affidavit must submit a copy of their affidavit online and must deliver the original to the Health Center by mail or in person.
