### RAMPING UP RAPIDLY

## Information to Help You

## Maintain Instructional Continuity

In response to TCU's announcement of moving classes online, the Koehler Center has developed a reference website called [Ramping up Rapidly](#) to help facilitate ongoing instructional continuity to adapt your instructional delivery and make pedagogical changes. You will find [tips and examples](#) for how you could convert course elements into an online format and the tools to do so. This website also includes multiple ways for you to get the support you need. We will continue to update the website with resources and support as needed.

In addition to the website, we have a [Virtual Open Lab](#) and have added a number of webinars. These webinars are designed to demonstrate tools and integrated apps in TCU Online that can assist you in moving elements of your course to an online format. Please see the schedule below.
