Have you had close contact with a person who tested positive for COVID-19?

A close contact is someone who

- Lives in the same house or residence hall room as a sick person with COVID-19.
- Cares for a sick person with COVID-19.
- Has been within 6 feet of a sick person with COVID-19 for 15 minutes or longer.
- Has been in direct contact with secretions from a sick person with COVID-19.

**YES**

- Stay home (or in your residence hall room) for 14 days from the time of your exposure. The time of your exposure is the last time you came in close contact with the positive individual.
- Stay home except for essential activities. Do not attend class or campus events, avoid contact with others.
- Contact the TCU COVID-19 Hotline at 817-257-2684 to report your exposure.
- Take your temperature with a thermometer two times a day to monitor for fever. You can use a temperature log to record your results.
- Watch for cough or trouble breathing.
- Review the COVID-19 daily responsibility list and follow the instructions based on symptoms.
- Do not take public transportation, taxis, or ride-shares.
- Get tested for COVID-19 within 3-5 days of exposure or notification of exposure.

A Care Coordinator will work with you during your quarantine, providing a wide range of support services.

- Communications with your professors on your absence.
- Logistical support for remote coursework.
- Meal and laundry options for your quarantine.
- Mental and physical health resources.
- Contact with Housing & Residence Life or Fraternity & Sorority Life to facilitate isolation for on-campus residents.

**NO**

Continue to conduct daily health assessments and maintain good hygiene and prevention standards including washing hands, wearing a face cover, maintaining 6 feet of physical distance, cleaning and disinfecting common spaces before and after use.
